# Precision in Form, Future in Design,

BOX

Overview

BOX is a geometric sans-serif typeface crafted as the core of the visual identity for Besign and its lead designer, Barry Shawn. BOX blends modern minimalism with clean geometric shapes, offering both a sleek and versatile design solution for various applications.

# Geometry Meets Innovation.

---

**BOX Regular 170pt**

The BOX typeface began with the exploration of geometric design inspired by OCR-B. BOX captures the precision and simplicity of it, reminiscent of shaping letters with matchsticks. This structured yet playful approach results in a modern, futuristic typeface that balances both technicality and creativity.
